

# 2024 MWV Youth STEM Expo Volunteers Wanted!

The MWV Youth STEM Expo is back for its second year!

This is an opportunity for individuals or pairs of students to explore, experiment, and innovate using science, technology, engineering, and mathematics. We will bring together students from grades 4-12 to share their projects and compete for prizes.

**Date: March 20, 2024**

**Time: during school hours**

**Location: Living Shores Aquarium, Bartlett**

**Who: Local students and you!**

**Register Here!**

## How can you help?

### Judges:

Needed on the day of the Expo. You will receive guidance on judging the STEM Expo exhibits, and will judge presentations by talking with students and examining their work. You will score each exhibit you judge, and collaborate with the team of judges to determine winners.

### Mentors:

Starting in January 2024, you will work with individual or small groups of students one to two days a week usually after school. You will guide students in using the scientific method and carrying out and presenting their chosen research or engineering project. Choose to work with elementary, middle school, or high school age students. SAU9 background check required.

### Other volunteers:

Needed leading up to the event and on the day.

- Join the planning committee
- Set up and break down the event
- Co-ordinate student's arrival and set up
- Meet and greet students and the public
- Help with scoring and coordinating judging
