## Join Us At The MWV Youth STEM Expo!

Unleash your creativity and curiosity! Whether you're passionate about exploring a research question or building an awesome design and engineering project, there's a place for your ideas. Here's how to get started:

- **Choose a Research Project:** Ask a cool question, research what's already known, experiment to find answers, and share your findings! Could you discover how to improve performance in your favorite sport, or what kind of music plants prefer?
- **Choose Design & Engineering:** Identify a problem, brainstorm solutions, create a prototype, and improve it. Could your robot navigate a maze? Could you design new tools for space exploration?

**Dive in, explore, and discover something amazing!**
